

JOHN BULL WANTS  
THE GREAT CANALSAY ENGLAND WILL REFUSE  
NICARAGUA'S PROPOSITION.

The Cession of Corn Island Would Give England the Command of the Canal—Little Republic Looks For New Allies—Venezuela Settles With Italy—Incited to Revolt

Managua, Nicaragua, April 23.—The British government has again made proposals, it has leaked out, for acquiring Corn Island, near the eastern terminus of the proposed ship canal. It is believed Nicaragua's new minister of foreign affairs, Matus, favors this scheme. But it is feared such a step would bring on the long-threatened revolution and might provoke a protest from the United States government.

It has also been suggested recently that the money indemnity demanded by England be raised by leasing Corn Island either to the United States government or to an American syndicate which has already begun negotiations for the island. Cable dispatches from London mention rumors that Great Britain will refuse to accept Nicaragua's proposition to submit all the disputes between the two countries to arbitration. But these reports can not be verified here. The government claims to have no information upon the subject. Administration officials assert a peaceful settlement of the difficulty will be made soon. England, according to rumor, has assured the United States no action will be taken by her that will affect the interests of American citizens here or of other foreign residents, and that she will only declare passive blockade against this country.

## WE WILL NOT HELP.

United States Government Can Not Support Nicaragua.

San Jose, Costa Rica, April 23.—Unconfirmed rumors are circulating here that the American government has notified Nicaragua's government that it can get no help from the United States, and that it has committed a wrong act in expelling Consul Agent Hatch. Nicaragua must make the best settlement it can with England, for even if Hatch has done all he is charged with, Nicaragua should have preferred a complaint formally against him to his government. In such a case the English government would either have withdrawn Hatch from Bluefields or have punished him. But in no case had Nicaragua the right to expel him or any other consular agent. These reports originate in telegrams received here by leading officials from Washington. Foreign residents say England would never bombard Greytown, as most of the interests there are foreign.

## Does Not Want the Island.

London, April 23.—The Chronicle says of the report that Nicaragua is willing to cede Corn Island to Great Britain: "The offer of Corn Island instead of a money indemnity looks like a 'plant' on the part of our Nicaraguan friends, for they know that its acceptance would call out against us all the champions of Monroism. We do not want any trouble with the United States over this peculiar doctrine, and therefore it would be better if we stuck to our money demands. If Nicaragua wishes to sell Corn Island she had better offer it to the Americans or some other people."

## Little Republic Seeking New Allies.

Colon, Colombia, April 23.—Nicaragua is seeking allies, it is understood here. She is preparing in every other possible way, it is said, to resist Great Britain's demands, contained in the recent ultimatum, for punitive damages for the banishing of British subjects from the Mosquito coast and for damages to the property of those and other subjects.

## Incited to Revolt.

Port Limon, Costa Rica, April 23.—Bluefields advises report that the Indians in Mosquito are being incited to rise against Nicaragua, being promised aid from Jamaica, if they will agree to reinstate Chief Clarence.

## Venezuela Settles With Italy.

Caracas, April 23.—Venezuela has agreed to pay \$100,000 to Italy for the loss sustained and damage done to Italian property during the late civil war in Venezuela.

## Trawlers Make a Ghastly Catch.

Lowestoft, Eng., April 23.—A trawler brought to this place several articles taken from the body of a woman which was brought up from the deep in the trawler's net. They proved to belong to Miss Emma Schlegel, the sister of Eugene Schlegel, one of the surviving passengers of the North German Lloyd steamship Elbe. Mr. Schlegel is a brother of the junior partner of the firm of Behlen & Schlegel, dealers in paints and oils, of No. 5 North William street, New York, and was on a pleasure trip to New York when the accident occurred. The body of Miss Schlegel was recommitted to the sea.

## Consul Hollis Gets Into Trouble.

Washington, April 23.—The Concord has arrived at Nagasaki, the Castine at Zanzibar, and the Olympia at San Diego. ## MISS LEITER MARRIED.

Big International Wedding Takes Place in Washington.

Washington, April 23.—The wedding of the Hon. George Nathaniel Curzon, M. P., and Miss Mary Leiter was celebrated at St. John's Episcopal church at noon yesterday, amid scenes of such brilliancy and in the presence of such a distinguished assemblage of cabinet officers, diplomats, governors and bishops as to give the event the character of a public ceremony. Long before the hour for the ceremony a curious crowd surrounded St. John's church, which is on Lafayette square, immediately fronting the white house. The church was filled to its utmost capacity. The presiding did not appear, as there is an unwritten law that the executive shall not

attend private social events. Bishop Talbot and the Rev. Dr. MacLay Smith officiated.

The bride, in white satin and rare white lace and carrying a cluster of white orchids, was on the arm of her father. The bridesmaids, Misses Nanette and Daisy Leiter, sisters of the bride wore pink tulle gowns with large pink mull hats and carried large bouquets of pink roses. The groom and Mrs. Leiter, Sir James and Lady Miller and Lord Leamington, the groom's best man, Mr. Joseph Leiter and Mr. Frank Curzon made up the remainder of the party.

The impressive marriage service of the Episcopal church was performed, after which the wedding party withdrew to the Leiter residence, to be joined later by relatives and intimate friends for the wedding breakfast. The bridal presents were numerous and exceptionally elegant, that of Mrs. Cleveland being a large silver lovingcup.

## DURRANT ARRAIGNED.

Police Have to Guard the Court and Control the Crowds.

San Francisco, Cal., April 23.—The preliminary examination of Theodore Durrant commenced in Judge Conlon's court yesterday. Before the court opened 5,000 people surrounded the hall and filled the approaches. Two large pictures of Miss Williams, showing the wounds and the work of the physicians, exhibited a revolting sight. Marian Williams' father identified the pocket-book found in Durrant's pocket as the one he had given his daughter. Sergt. Burke gave a bit of sensational evidence which has not come out before. He said that when he examined the lavatory of the wash-room in the back of the church, just to the rear of the pulpit, he saw blood stains on the wash basin and wall just above it. Sergt. Reynolds, in charge of the searching squad, had called his attention to the stains. Maggie Fitzpatrick identified Durrant as the young man who had called on her and two friends on Mission street, near Twenty-second, April 12, on the night Miss Williams was murdered. She said he was agitated.

## Gresham Seeks Financial Advice.

New York, April 23.—Secretary Gresham is in New York, it is said for financial advice. He spent most of his time yesterday with two experts, ex-Secretary of the Treasury Benjamin H. Bristow and J. W. Doane of Chicago, receiver and government director of the Union Pacific railroad. To callers, morning and afternoon, word was sent that all were too busy to see anybody. Mr. Gresham intended to keep the knowledge of his visit to New York from the public. He did not put his name on the hotel register and remained in his room most of the time during his stay here.

## Rumored Suicide of Gen. Maceo.

Santiago, Cuba, April 23.—Major-General Antonio Maceo, the Cuban insurgent fighting leader whom the Spaniards most desired, has committed suicide, it is believed. Gov.-Gen. Campos stopped at the entrance to the harbor here yesterday on his way from Manzanillo to Gila, but he did not land. He merely halted for a consultation on shipboard with the generals in command of the Spanish troops in this part of the island. Nineteen hundred more Spanish regulars arrived here to-day.

## Chicago Unions' Complaint Downed.

Indianapolis, Ind., April 23.—The executive council of the Federation of Labor yesterday decided adversely on the complaint of the Chicago unions that the action of the Illinois state convention was illegal in that it admitted illegally elected delegates. President Riefler of the Illinois branch and Secretary W. M. Groves of the Chicago Trade and Labor Assembly presented both sides of the case. The Chicago brewery workers' trouble with the national organization will be taken up to-day.

MUST DO SOMETHING  
TO RAISE THE CASHEXTRA SESSION TALK AT THE  
CAPITAL.

The Apparent Prospect Is a Deficit Double That Estimated by Secretary Carlisle Before Adjournment—Conflict Over South Dakota Lands.—General Washington News

Washington, April 23.—Talk of an extra session is being revived by the decision in the income tax and the apparent prospect of a deficit at the close of the fiscal year of more than twice the amount estimated by Secretary Carlisle just before the adjournment. Under the circumstances, however, Mr. Cleveland will not be likely to call congress together unless there is a pressing need for more revenue, a need so great that the operations of the government would be practically crippled unless the deficiency was provided for. Administration officials say the president has no inclination to burden himself with an extra session of a congress one branch of which would be opposed to him politically, and the other financially, and both on foreign policy.

## Conflict Over Lands.

Washington, April 23.—J. J. Lockhart, state commissioner of education of South Dakota, with J. H. King, counsel for the state, called at the interior department yesterday in connection with the claim of South Dakota to 50,000 acres of indemnity school lands in the Yankton Indian reservation. A conflict has arisen between the state and the Indians, and the president has withheld his proclamation opening the reservation until it can be settled. The case will be heard by Secretary Smith either Thursday or Saturday.

## No Income Tax Decision.

Washington, April 23.—Contrary to general expectations the United States Supreme court failed yesterday to hand down a decision on the motion for a rehearing on the income tax cases. The chief justice announced that Friday, May 3, the court would cease the call of cases on the docket for the present term. The two facts together are taken to mean definitely that, whatever the decision of the court on the motion for a rehearing may be, the court has no expectation of a reargument during the present term.

## Nicaragua Canal Commission.

Washington, April 23.—Mr. Noble, civilian member of the Nicaragua Canal commission, was in conference yesterday with Civil Engineer Endicott, naval member of the commission. Col. ## ALLEGED ELBE SURVIVORS.

Reported That They Were Picked Up at Sea by a Freight Steamer.

New York, April 23.—Fifteen Elbe survivors, in addition to the twenty-two saved on the night of the disaster, are reported to have been brought here Feb. 11. The recent European papers are filled with reports to the effect that a boat containing fifteen survivors was picked up by the freight steamer Wittekind, bound from Bremen for New York. A particularly circumstantial account is given of the case of Alois Heikelsmueller, a passenger on the Elbe, who was mourned for dead by his relatives in Gnaaz, Bohemia, until recently, when a letter was received from him dated Highland, near St. Louis, detailing the circumstances of his rescue. In this letter Heikelsmueller said that on arrival in New York Feb. 11 he and his fellow survivors were taken charge of by the representatives of the North German Lloyd company and shipped to their respective destinations free of charge, on condition that they should not reveal their identity as Elbe passengers.

## Canada Is to Press for That \$425,000.

Ottawa, Ontario, April 23.—In the house of commons yesterday Mr. Costigan, minister of marine and fisheries, stated the Canadian government had been promised by the Imperial government aid toward recovering the award of \$425,000 agreed upon as the proper amount to be paid by the United States as a compensation to British sealers. The Imperial government will at once, he said, communicate with Washington on the matter.

## Killed His Wife and Himself.

St. Louis, Mo., April 23.—A telegram from Paris, Tex., says that at Covenall, T. T. George Parsons at 3:30 yesterday afternoon shot his wife and then killed himself. Neighbors heard the shooting and broke in the doors, which had been locked, and found Parsons and his wife lying dead in the same room. No reason is given for the crime except that Parsons was jealous of his wife.

## Run to Hear the Debs Case.

Chicago, April 23.—Judges Woods and Jenkins of the United States Circuit court made an order formally assigning Judge Bunn of Wisconsin to preside over the Debs conspiracy case May 6. The clerk of the court will summon a venire of 150 men from which to select the jury for the trial. Two hundred were called at the previous trial, but not over half were passed upon when the jury was completed.

## FEARS OF AN OUTBREAK.

Startling Phase of the Trouble on the Winnebago Reservation.

Omaha, Neb., April 23.—The trouble on the Winnebago reservation came up yesterday in the Federal court, and will be tried on its merits today. United States District-Attorney Sawyer has returned from a visit to the Indians. He found the temper of the majority among the tribes of the Omahas and Winnebago to be unmistakably in favor of waiving the formalities of jurisprudence and settling the question with lead and steel. Mr. Sawyer declared in the court room the spirit of unrest is so great a serious outbreak is liable to follow any further delay in settling the disputed questions.

Capt. Beck, the Indian agent, has authority to commission every Indian on the reservation a policeman if necessary. He admits he will enforce the government regulations if it takes every Indian on the reservation. The prejudice against Capt. Beck said to be fostered by members and friends of the Flournoy Land company has widened the gap between the Indians and the white. Settlers leasing from the Flournoy Land company are thus between two fires, because they would be the first victims of an outbreak should one occur. One result of this is that many of the wives of the settlers are leaving the farm-houses and going to Pender and other towns in fear of possible results of the present conflict, especially if the settlers are evicted.

## Believed to Be the Work of a Striker.

St. Louis, Mo., April 23.—An attempt was made to blow up the residence of Herman Knopke, in East St. Louis, early yesterday. Dynamite was used. The front of the house was badly wrecked, all the windows shattered and a big hole was blown through the roof. That the explosion was the work of some striking employee of the Tudor Iron works is the generally accepted explanation, for one of the occupants of the house was J. E. Jones, superintendent of the roller mills, who had charge of the importation of men to take the place of strikers. No one was injured.

## Schultz's Defalcations Are Large.

Tacoma, Wash., April 23.—Additional facts show that Paul Schultz's defalcations as Northern Pacific land agent reach much larger sums than have been stated heretofore. The St. Paul syndicate of Spokane is known to have paid him between \$400,000 and \$500,000 for Spokane property for which no account was made. P. A. O'Farrell of Spokane is here trying to protect the syndicate's rights. The property purchased is four or five acres near the heart of Spokane.

## Crown Point Murder Mystery.

Crown Point, Ind., April 23.—The finding of the body of Barney Ellwanger in Lemon lake, near this town, has done nothing to clear up the mystery surrounding the murder of Pauline Ellwanger, nee Dolezal, thirteen days ago at Cedar Lake. Detectives unnumbered are at work on the case, and important arrests are expected soon.

## League Games To-Day.

## THE HIGGINS HOUSE WAS FIRED

The Illinois Den Near Beloit Fired By Incendiaries

Beloit people threw up their hands and "hollered" for joy Sunday morning when an alarm of fire was sent in. The blaze was in what the Free Press calls "that cess pool of moral nastiness, the Higgins' den, owned by Rhoda Whalen and situated on the Illinois side of the state line." The fire was put out much to the regret of the respectable people of the city. There were many amusing scenes about the fire as the inmates rushed around. The building was not so badly burned as to make the crowd that lives there homeless. The fire was started in the cellar by incendiaries. Beloit people are not mean in protecting Illinois property from fire, but many cannot see why the firemen should do work where the police authority does not extend.

## TROUBLE AMONG MINERS.

Convention at Pittsburg Decides to Hold Out for 69-Cent Rate.

Pittsburg, Pa., April 23.—The miners' convention adjourned yesterday after being in session all day. It was expected that the operators would agree to a conference, but in this the miners were disappointed. The attendance was much larger than Saturday, and the river mines, which have been working at the 69-cent rate, were well represented. All the delegates from up the river brought with them considerable money, which was divided among the idle strikers. A resolution to hold out for the 69-cent rate was introduced and according to the press committee was carried unanimously. The convention then adjourned. It was suggested to one of the delegates that the action of the convention was possibly a mistake, when the delegate replied: "We waited all day for a conference with the operators and they thought they would ignore us. We will now give them a chance to make good their bluff of starting their mines at the 60-cent rate. There are more men working at the 69-cent rate than is generally supposed. We might just as well starve in idleness as in working."

Henry Floersheim says he will begin operating the Nottingham mine, on the Wheeling division of the Baltimore & Ohio, this morning, and has sixty men ready to go to work. As the situation now stands there probably will be trouble throughout the district and plenty of work for deputy sheriffs.

## BILLS GO UP A STEP.

Short Session at Springfield of Senate and House.

Springfield, Ill., April 23.—Among the bills advanced yesterday was Mr. Callahan's important bill to provide for the speedy determination of contested election cases, which was called up out of its order in the house by Mr. Lowenthal of Cook, and was advanced to third reading. Among those advanced in the senate was Senator Little's, repealing that portion of the law in regard to court practice which provides that the Supreme court shall re-examine cases brought to it by appeal or writ of error as to questions of law only and no assignment of error shall be allowed which shall call in question the determination of the inferior or Appellate court on controverted questions, in fact in any case excepting those enumerated in the law.

The house advanced to second reading all the house bills on first reading and then proceeded to senate bills on first reading. All on the calendar, thirty-eight in number, were read and referred to the appropriate committees. Among the senate bills thus advanced were the following: Berry's bill to prevent the wrongful taking of news dispatches from the telegraph or telephone wires; bill authorizing form drainage districts to issue bonds; the ninety-day pool selling bill; the bill fixing the compensation of members of the general assembly at \$800 for each regular session. The house adjourned to 9 o'clock this morning.

## ENLISTS 1,000 PAPERS.

Crusade Against Free Silver Started in New York.

New York, April 23.—An important crusade against the free coinage of silver will be inaugurated in the metropolis this week. It will cover every section of the country, and it will not only aim to give an expose of the fallacies of the advocates of free silver, but will also have the ethics of sound money. This movement, while it will be separate from the Memphis convention, will have the same aim, and its purposes will be to educate the public for the money questions that are bound to figure in the presidential election next year. A series of editorial articles will appear regularly in at least a thousand newspapers all over the country beginning this week attacking the free silver advocates. The latter have become decidedly aggressive in the west, particularly in Illinois and Michigan, so that the monetarists of the metropolis believe that a destructive rather than a constructive campaign should be waged at once. The head and center of the metropolitan movement is the Reform club of New York, which numbers among its members nearly a thousand of the most representative men of the metropolis and twice as many more who are scattered all over the union. The club has been working quietly for some months past, but now that all indications point to a presidential campaign next year in which the leading issue will be the free coinage of silver they feel that an aggressive crusade is necessary.

## Fierce Fight in a Gypsy Camp.

Liberty, Ind., April 23.—Sunday night on Hannas creek, one mile east of Liberty, Buck Noe, with his brother and several other toughs, visited a gypsy camp on the creek. A free-for-all fight resulted. his sixty-fourth year. He is the eldest of eight brothers who have borne arms for their country, and has been in the army for forty-two years, although during the war he served with the volunteers.

## WALLER WAS MANACLED.

French Officials Refuse to Allow the Ex-Consul to Write a Letter.

Marseilles, April 23.—The case of John L. Waller, formerly United States consul at Tamatave, Madagascar, recently sentenced by a French court-martial to imprisonment for twenty years, and who arrived here last Saturday on the steamer Djennah, is attracting attention in view of the fact that the United States ambassador at Paris, James B. Eustis, has been instructed to inquire into the matter. Mr. Waller was manacled while on board the Djennah off Madagascar, but afterward was allowed to take two hours' exercise daily on deck guarded by a soldier. Upon arrival here he was lodged in jail and it is reported that he will eventually be imprisoned on the Island of Corsica or on the Safety Isles.

During the voyage Mr. Waller frequently asked permission to write. The French officials declined to grant his request on account of his refusal to agree to show them the letter he intended to write. When before the court-martial Mr. Waller, it is claimed, refused to speak in French, and the services of an interpreter had to be employed during the trial. For the present Mr. Waller is incarcerated in the prison at Fort St. Nicholas. It is thought probable that he will again be called upon to appear before a court-martial.

## Oil Market Inactive.

Pittsburg, Pa., April 23.—The life seems to have gone out of the oil market. Oil opened yesterday at \$1.55 bid and was offered at \$1.58, down to \$1.56 without any sales. Only 2,000 barrels were sold on the Oil City exchange up to 10:30 o'clock. The Standard again made a reduction in the price for credit balances of 15 cents to \$2.10.

Caracas, Venezuela, April 23.—Steps are said to have been taken to bring about an alliance of all the Latin-American countries against European aggression. A number of governments, it is said, have approved the plan and a general congress will likely be called in July to consider the matter.

## MUCH WORK DONE BY THE COUNCIL

MRS. JOYCE WILL GET \$1,200  
FOR INJURIES SUSTAINED.

Judiciary Committee Decide on Investigation That This Is the Best Way Out of It—Auctioneers' License Fee Raised—Want Water Mains Extended—Other Business Done.

The new council held their first regular meeting last night and they had plenty of business. First they passed an ordinance taxing auctioneers 10 per cent. of sales and \$50 a year; referred a petition for the extension of water mains on Madison avenue; and an order was adopted for the payment of \$1,200 to Mrs. Hugh M. Joyce in settlement of damages sustained by her in a fall on the sidewalk.

All the aldermen were present last evening except Alderman Kothman, although a few of the members were tardy in taking their seats. Mayor Baines presided, and Clerk Badger had his first experience in presenting the business to the council and reading documents, which duty he performed in a very satisfactory manner.

The principal business considered last evening was the passage of an ordinance relating to auctioneers, the rules being suspended for this purpose. The ordinance was presented by Alderman Winslow, and the ordinance was explained by City Attorney McIlroy, who said he had drawn up an ordinance some time ago in relation to auctioneers, but it was not satisfactory to the aldermen. The new ordinance reduces the fee from \$100 to \$50 per year, and instead of two per cent. of the gross receipts of all sales as in the old ordinance it is now 10 per cent. on everything except live stock. This he thought would keep out all foreign cheap goods sales. The present license fee was so high that no one would take out an auctioneer's license and the city had long been without a public auctioneer. This was not only a loss but an annoyance.

### Extend Water Mains.

Another important matter was the introducing of an order by Alderman Burnham, for an extension of the water main on Madison avenue, from Highland avenue north to the city limits, which order was referred to the committee on fire and water. While there is considerable property that would be benefited in the way of fire protection along this line, the main motive for the extension is to reach as near as possible Oak Hill and Mount Olivet cemeteries, that these grounds may be better kept up. It is claimed that all the people are directly interested in one or the other of these silent cities, and that while the expense is not exorbitant, there being only ten fire hydrants required, the benefits would be such that the expense would not be thought of.

J. H. Burns presented a petition and affidavit, showing that a majority of Fifth avenue property owners desired a re-grade of that street, and the document was referred to the highway, street and bridge committee; the committee subsequently reported the petition back to the council, with a recommendation that the city engineer file a new grade for that street.

The petition of North Hickory street property owners for a fire alarm box and extension of water mains, was referred to the fire and water committee.

### Proposition of D. Jeffris.

A proposition in writing from David Jeffris, offering to sell the city his Dodge street sewer for \$150, the city to guarantee him sewerage to the river, was presented, and opened up the old matter relating to sewerage from the new high school and Lincoln buildings. The discussion finally ended by a motion by Alderman Burnham that the document be received and placed on file, which motion prevailed.

The matter of cleaning the paved streets once a week by the occupants of abutting buildings, was brought up by Alderman McLean, who protested that such compulsory work was not fair, as a number of occupants refused to clean the streets in front of their property, and when the city attorney stated that it was doubtful if they could be compelled to comply with the order, Alderman McLean moved that the matter be referred to the highway, street and bridge committee. Adopted.

Pay Mrs. Joyce \$1,200.

An order was adopted for the payment of \$1,200 to Mrs. H. M. Joyce, in full compensation for damages sustained by a fall on a defective sidewalk on Washington street last July.

### Awarded

Highest Honors—World's Fair.

**DR. PRICE'S CREAM BAKING POWDER**  
MOST PERFECT MADE.

A pure Grapic Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 YEARS THE STANDARD.

The matter had been investigated by the judiciary committee, and the committee was satisfied this would be the right and cheapest course to pursue. The order was adopted.

On motion of Alderman Winslow, the street commissioner was directed to uncover the display fountains. The official bonds of Health Officer James Gibson, Assessors Henry Hemming and D. W. Watt, were approved. The city treasurer's report to April 15, was referred to the finance committee.

The report of Street Commissioner Watson, showing the needed improvements in the streets, was presented, referred to the highway, street and bridge committee and subsequently placed on file.

Alderman Heddles of the finance committee, reported in favor of allowing sundry bills against the several funds, which was concurred in.

MANY AT THE ENDEAVOR RALLY  
A Goodly Audience Participated in the Meeting Last Night.

The christian endeavor rally drew a large audience to the Presbyterian church last evening. Prayer by J. C. Kline, the Y. M. C. A. secretary, opened the meeting and Miss Nettie Harrington, of this city, state superintendent of the Junior Endeavor societies, presided. After C. N. Vankirk had sung a solo, Frank Spoon, of the transportation committee explained the arrangements for the trip to Boston where the international convention will meet.

A. G. Leffingwell, state president of the union christian endeavor societies, then spoke on "The Endeavorer as a Citizen," outlining "the formation and growth of the union and explaining its work, he holding that the endeavor citizen is first, last and always christian."

A vocal duet by Mrs. A. O. Wilson and D. D. Bennett followed and Rev. F. N. Dexter, of Clinton, district president of the Christian Endeavor societies, addressed the meeting, his subject being "Enlargement." ### THOMAS H. EDDEN SURPRISED

Friends Marked His Birthday Anniversary in a Pleasant Manner.

A large number of ladies and gentlemen from the city and the town of Harmony, perpetrated a very pleasant surprise on Thomas H. Edden Saturday evening at his home in the town of Harmony. The evening was most pleasantly spent, refreshments being served, and before the party departed Mr. Edden was presented a handsome easy chair, besides many other tokens of friendship, which will serve as reminders to him of the happy occasion and the esteem of his many friends.

### DIDN'T FEEL HIS LEG BREAK.

John Bennett of Clinton, Injured Without His Knowing It At All.

John Bennett of Clinton, had his leg broken yesterday, without knowing it. Bennett was driving his team on the streets of Clinton, when the animals became frightened and ran away. Bennett was thrown to the ground and his leg fractured, although he was conscious of no pain at the time. It was a wooden leg and that is the reason that Bennett did not feel it.

### A Medical Marvel.

We do not need to go to the remotest parts of the earth to find that which will produce miraculous results in the curing of disease. We have right here in our own state one of the greatest medical wonders of the age. We have reference to "Septicide," which has been the means of curing some of the most obstinate and distressing complaints known to human sufferers; and this work is being done daily right here under our own observation. Everybody seems to be talking about "Septicide," and what it has done for them in such diseases as dyspepsia, sore throat, catarrh, old sores, skin diseases, &c. Its mission is to destroy the diseased germs, the cause of disease, and it does it quickly.

## RACHFORD HELD UP BY TWO FOOTPADS

IT WAS MILTON'S FIRST HIGHWAY ROBBERY.

Thieves Got a Ten-Dollar Bill and Several Dollars in Silver For Their Work—Jumped on Him in a Dark Place—Other News From About the County.

MILTON, April 23.—The first "hold up" that ever took place here occurred Saturday night, Timothy Rachford being the victim. He was on his way home from the Junction walking on the railroad track, early in the evening and in the cut near the nursery two men met him, one of whom threw his arms around Rachford's neck and drowned him. Then the thugs went through his pockets securing a ten dollar bill and four or five dollars in change but missing five dollars that he had in his vest pocket. Mr. Rachford noticed several other men on the high bank, but they did not take part in the robbery.

There was a regular boom in business at this station last week. Carload shipments included twenty-one cars of leaf tobacco shipped by Soverhill & Porter, two cars of live stock shipped by Vincent & Hassinger and M. Dawson & Co. and five cars of baled hay shipped by G. E. Bacon, G. C. Austin and H. Bowers. Four cars of freight were received, two of tobacco, one of flour and one of nursery stock in addition to a large quantity of merchandise in less than car load lots. Judge Luther B. Noyes, editor of the Mariette Eagle, who died on the 18th inst., was a resident of this village in its early days. He came here with his father in 1845 and the older settlers remember both him and his father, Dr. Noyes, well. George Coor dropped a five dollar bill on the floor in the post office Thursday about noon. It laid there in plain sight until 3 o'clock in the afternoon, when the postmaster happened to discover it. A hundred persons had been in and out and none of them had spotted it. E. S. Babcock has moved his shop to Fetherston's mill. He goes there to get the steam power which he needs in manufacturing his punch and shear machines. Mr. Babcock will continue the bicycle business and do repairing at his new shop.

The baseball season opened Friday with a game between the Junction Juniors and the graded school boys, the former winning by a score of 25 to 20. Road Commissioner Coon is patching up the sidewalks about town and making them safe. D. K. Davis of Smythe, S. D., father of A. C. and W. K. ## PLOW WORKS PLAN A VERY GOOD ONE

JANESVILLE CAN GET AN EXCELLENT FACTORY.

Committee Report Favorably on H. Sater's Proposition To Locate Here. He and a Friend Will Put in \$30,000, if Janesville People Will Take \$20,000 or Furnish Land and Factory

Janesville may have a plow factory if she will, and the conditions are not only favorable but very flattering. The industry which is recognized as one of the best in the country, can be placed in the hands of men who are not only intelligent and honest, but men who have made a success of the business, combining practical knowledge with inventive genius, and possessing sufficient capital to materially aid in developing the business. All of these facts were brought out at the business men's meeting last evening. S. C. Cobb, chairman of the committee, appointed last week to investigate the business, made a very favorable report. He said that he had known Mr. Sater, who was present, for twenty-five years, first as a small manufacturer at Orfordville, later at Brodhead, and still later at Dubuque and Madison. The Norwegian Plow Company at Dubuque was largely indebted to Mr. Sater for its success, while the Fuller & Johnson Company at Madison, recognized his ability and genius, by stamping with his name most of the plows that they manufacture. Mr. Sater had with him a number of models lately perfected, and not yet on the market. His proposition is to organize a stock company in Janesville, with a capital of \$50,000, of which himself and a friend will furnish \$30,000, about 50 per cent to be paid in when the company is organized, and the balance as the business required.

Mr. Sater said if this could not be done, and the citizens preferred to furnish a building and sufficient land that he would find the capital outside, although he preferred that Janesville people should have an interest in the business. The Madison Company from a small beginning, had reached an output of 17,000 plows per annum, employing from 300 to 400 men, most of them skilled workmen. The meeting decided to make an effort to place the stock, and a committee was appointed for that purpose, composed of J. P. Baker, F. S. Winslow, John Gateley, Mayor Frank Baines and E. W. Lowell. These gentlemen will make a canvass and report next Monday evening.

The Gazette bespeaks for them the success that the enterprise deserves. It may not be the most favorable time to take hold of new enterprises, and yet when an opportunity is offered to secure an industry backed by practical men with more than half the capital required, it should certainly be secured if possible. There is no question but that the future of the business would be very prosperous.

## FASHION NOTES.

## Blouses For Every Occasion—Pink and Purple Leading Colors.

Blouses are worn for day, dinner and evening occasions. Indeed anything in the shape of an individual waist is now called a blouse, and the materials employed range from plaid silk to gauze, while the styles cover everything from the plainest morning mode and full dress evening bodices.

Pink and purple are the leading colors worn this season. Purple in particular has a great vogue, perhaps on account of

BLOUSE.

the Napoleonic violet, and a compromise is struck between the two colors in the large pinkish purple catleya orchids, beautifully made (the artificial ones, of course), the natural ones need no such commendation, which have lately filled the windows of fashionable shops.

Wing shaped ornaments, more or less spangled or jeweled, are a feature of spring millinery and are much employed for small capotes and the apologies for bonnets that are worn on dress occasions.

Straw color continuing to be fashionable, primroses are among the accepted flowers of the season. Poppies of various colors and roses are also much worn.

Suede, beige and grayish tints are in vogue this spring, while rose, green and mauve predominate among more decided colors. Notice has already been given of the fashionable fancy for bright plaids in silk or silk and wool goods.

A great deal of fancy woven material is worn, not only of the crepon variety, but in the line of checks, diagonals and corded goods. Broadcoted taffetas are much liked, the newest ones having a black figure on a tinted ground.

The blouse of which an illustration is given is of almond crepon. It is closed at the side and has a square plastron of guipure over pancy silk. The bands of trimming are of pancy velvet, as are the draped collar and belt. The balloon sleeves are of almond and pancy striped silk and are gathered into a deep cuff of guipure, the top of which is adorned by a bow of pancy velvet.

## SPRING GOWNS.

## They Are Worn Very Full, but Not With Steel In the Hem.

Women who have read with dismay that it is now necessary to have bands of very fine steel run in the hems of gowns to make them stand out properly will be glad to know that the best Parisian costumers disavow the practice, and that the dresses of some of the most fashionable and richest women in France are quite devoid of any such innovation. The distention of the skirt by such means implies that it is

LILAC GOWN.

either ill cut or an old one furbished up to look new. Besides using great skill in the cutting, the best Parisian dressmakers employ very rich materials, even to the lining, which is of superior quality, very much better than many ladies can afford to buy for their actual dresses. The effect of the two rich materials fastened together is to make the back plaits, the godets, fall richly, in soft lines, yet without stiffness or undue formality. So much stress is laid on these skirts, and justly, for a well fitting skirt, even if of cheap material, characterizes the wearer quite as much as a well cut bodice, that home dressmakers may be glad of a point as to the cutting and making. The accounts of skirts of seven and nine yards circumference or measuring even more around the hem must be accepted with caution.

In crepon or chiffon, or any very light material, such amplitude may be possible, but no woman could stagger along with so much twined or serge lined throughout, without being half dead with fatigue in a few hours. For a morning dress or for street wear 4½, 5½ or 6½ yards will be quite sufficient for a skirt width. Where greater width is desired, with goods that is not gauzy in its texture, the back breadth may be cut in semicircular form, which will make an immense width at the hem with very little fullness at the waist.

The gown illustrated is of lilac crepon. The godet skirt is adorned with plaited equilles of green silk gauze, fastened near the hem by bows of green ribbon. The corsage is of ecru guipure, ornamented with points of green ribbon. At the back a bow of green ribbon finishes the point at the waist. The balloon sleeves have epaulets of plaited green gauze under a smaller epaulet of guipure.

JUDIC CHOLLET.

## Child Tending.

Mothers cannot be too careful in the selection of the guardians for their children, and they should make it their business to see that the little ones are looked after conscientiously, both when the nurse knows that she is being watched and when she thinks herself alone with her charge. The sooner cultivated, self respecting, careful women take up the profession of child tending the better it will be for the babies growing up in our midst, and not until then can mothers feel altogether comfortable when their little ones are out of their sight.

## CURES OTHERS

Mrs. J. H. LANSING, of South Glen's Falls, Saratoga County, N. Y., writes: "After my third child was born, I barely gained strength enough in two year's time, so as to be able to crawl about to accomplish the little house work that I had to do, and that only by lying down to rest many times each day; had sick headache very often, many pains and aches all the time. After I had taken one bottle of your 'Favorite Prescription' I could see a great change in my strength and less sick headaches. Continued taking the medicine until I had taken seven bottles of the 'Favorite' and one of the 'Golden Medical Discovery'; I am now able to do housework for myself and husband and two children aged nine and five. I also take dressmaking, and enjoy walking a mile at a time, when I can have the time to do so. And I am sure it is all due to Dr. Pierce's Favorite Prescription as I know I was falling fast before I commenced to take it." Sold by medicine dealers everywhere.

## COIN'S FALSE SCHOOL.

The Chicago Tribune devotes several columns in recent issues to answering some of the heresies taught in Prof. Harvey's "Coin's Financial School" and reprints the following article written by R. W. Knott in the Louisville Post. "A tired newspaper man sought amusement in an idle hour, and began a work of fiction, pure and simple. As he progressed he decided to change its purpose and make it a satire on current political discussion.

Then it occurred to him to enliven his text with diagrams, to stir in a few statistics, to add a foot note or two, to tack on an appendix, and to send it out as a popular treatise on political economy, which he did, and he called it "Coin's Financial School."

It is one of the most amusing of recent publications, but the most amusing thing about it is that some persons are inclined to take the book seriously.

The writer quotes a statute and clips it off in the middle; he jumbles his figures like a prestidigitator, and then tells the spectators they will find the answer in their hats. He makes his comparison of value by diagrams of weight; he asks if you divide the wheat crop by a given number of ounces of gold how many apples will England buy of America. He insists that though the gold product of the world in 1895 is as large as the gold and silver product of the world in 1873, yet the refusal any longer to coin the silver dollar accounts for the decline in prices twenty years after the crime of 1873. He asks if it is not plain that we cannot pay the debts of the world in gold when the debts are twenty times as great as the gold. Altogether his conundrums are as marvelously constructed as his statistics, and they are fearfully and wonderfully made. But as he answers his conundrums himself his kindergartners are satisfied and they have Coin as a great financial authority.

Unfortunately his auditors and readers are sincere, however much the author may be given to charlatany and humbug, and he finds himself a king for a day as Bellamy did.

It is only another illustration of the necessity of teaching the rudiments of political knowledge in our public schools. Coin has not the first conception of money, industry, or of commerce. There is not in this book the least indication this "teacher" has ever studied either the history of commerce or the first principles of political economy. The book is so lacking in the first elements of serious work that men in earnest hate to refer to it at all, and when they do, do not know where to begin.

The following catechism is designed to present clearly the first principles in the currency question; to show the relation of money to wealth; of coin to money; and to trace the development of modern commerce from its first stage of barter. It is believed that if one has distinctly in mind a few historical facts, a few scientific principles founded on these facts, one cannot be imposed on by financial charlatans or economic quacks.

The catechism that follows is exhaustive, touching all phases of political economy and standards of value. Among the pertinent questions asked and answered are the following:

Q.—Does coinage add to the value of either metal?

A.—It adds nothing to its value. It simply makes it more convenient to use and thus facilitate exchange.

Q.—Then gold and silver are mere commodities after coinage as before?

A.—The same as before.

Q.—Can you give any illustration to sustain this assertion?

A.—When the coinage is free the coins are only of the value of the bullion each contains. Their legal tender quality adds nothing to their intrinsic worth. Melt up a gold eagle and it is still \$10. Melt up a silver dollar in any free coinage country; it is still worth 50 cents, same as the silver dollar was.

The Tribune of April 16-17, contains the entire catechism, and it is well worth studying by every man who is stultified with free silver heresies.

## A GANG OF CROOKS STOLE MANY TOOLS

### HIGH SCHOOL WORKMEN LOSE THEIR KITS.

Chests Were Broken Open Last Night. Police Found Some of the Implements in the Second Hand Stores, and Now Think They Will Get All the Thieves.

Burglars or sneak thieves have been doing a lucrative business at the new high school building for the last few days, taking tools belonging to the contractors and workmen. Last night they again entered the building and broke open a large chest, taking the best tools in a tinner's outfit. The police were notified of the fact early this morning and Chief Acheson and Patrolman Hogan at once went to work to capture the offenders. It was not long before they captured one in the Northwestern yards, who was waiting for a chance to get out of town. He answered the description of one of the gang who had been hanging around the building, and who the workmen suspected of being implicated. The officers then visited the second hand stores and found a number of the tools which had been sold for small sums. The officers are of the opinion that there are three or four men in the gang, and that they will be able to capture them all. Chief Acheson arrested a tramp last evening, who also answers the description of one of the men suspected.

The case of the state against C. D. and Terrell S. Johnson of Beloit, charged with receiving some of the goods stolen from a Northwestern car at Shopiere, was called in the municipal court this morning, and continued until April 24, at 10 a. m.

The case of the state against Louis Klingberg, who is also charged with implication in the car robbery, was called at 2 o'clock this afternoon and by consent continued until 2 p. m. April 24, at which time it is rumored, the case will be disposed of.

Work a Smooth Game For Cash. Two quick witted gentlemen have been working a smooth but innocent appearing scheme in Janesville, and thereby filling their pockets with the shining coin of the realm. The two gentlemen came to Janesville a few days ago and told their tale of woe to different merchants.

"We are from Fort Dodge, Ia.," one of them explained, "and we are trying to get money enough to get home." If the merchants subscribed to the fund, they asked them to write their names in a book, that the beneficiaries might know to whom they were indebted when the sun of prosperity again appeared over the dark horizon of their gloomy life. In case the merchant didn't contribute, the request was the same.

"Your name on our books will help us in other cities and with other people," was the argument used. And they told the truth.

The names in the book was all they wanted. Of course they didn't scorn ten cent pieces; they were clear gain, but they had other fish to fry and their heads were somewhat longer than they were wide. When they had secured a formidable looking list of names either by cajolery or forgery they folded up their books and hid themselves into the country. Here, as the story is told, the conversation would be something like this:

"Good morning, Mr. Smith."

"Guess you've made a mistake. My name is Jones."

"Oh yes; Jones, of course, I made a mistake."

"Mr. Jones we are trying to get to Fort Dodge, Iowa, and see we are endorsed by the following well known firms in Janesville, who recommend us to you."

Then comes the story of starving children and weeping wives. The tender heart of the wholesaled farmer is touched and he goes down in his pocket. When the coin reaches the palm of the tearful tourist he adds the name of the farmer to the list in his book and with profuse thanks, moves on to the next house. Here the same scheme worked again except that "you see I'm indorsed by—No neighbor—Jones" is injected into the conversation with heartfelt frequency. Just how much money was raised by the alleged sharpers is not known, but the game is a good one and is said to be very successful.

BABE'S COLLAR BONE BROKEN. Little Daughter of Mr. and Mrs. H. W. Fritz Painfully Injured.

Little Ida, the three-year old daughter of Mr. and Mrs. H. W. Fritz, had the misfortune to break her collar bone. She was taken to Dr. Pember's office this morning, where the fractured member was set.

GAS NEARLY KILLED THE GIRL. Hard Work By Dr. Judd Saved One of L. B. Carle's Servants.

All but dead the family of L. B. Carle found a servant girl in her room at their house this morning and an open gas jet told the whole story. Dr. W. H. Judd was hastily summoned and after hard work succeeded in restoring her to consciousness.

The girl began her duties at the Carle home yesterday noon, and last evening both of Mr. Carle's daughters explained to her how the gas worked. Early this morning the odor of gas was detected, and traced to the girl's room, where she was found lying on the bed in an unconscious condition, while the gas jet was nearly wide open.

SCHOOL BOARD MEETS TONIGHT. Apparently There Is No Opposition To The Present Officers.

The new school board will organize this evening, a special meeting of the commissioners being called to the city clerk's office for that purpose. There appears to be no opposition to the re-election of the old officers—President T. W. Goldin and clerk, John H. Cunningham. These two gentlemen will undoubtedly carry off the honors named, they having performed the duties of their respective offices the past year in a manner satisfactory to all concerned. After the selection of officers the new president will appoint the standing committees for the ensuing year.

## FOUND HIS FAMILY AFTER 35 YEARS

### ROMANCE OF W. BARKER'S VISIT TO JANESVILLE.

When He Returned From the War His Wife and Babes Had Left, and He Had Not Heard From Them Since, Until a Few Days Ago—A Pathetic Meeting.

Through his visit to Janesville Walter Barker, an old soldier, found his wife and family from whom he had been separated since the beginning of the war.

The story is a romantic one. Among the first to respond to the call of President Lincoln for volunteers was Walter Barker, then a Brown county farmer. Since then nothing was heard of him by his wife and children until a day or two ago when they received a letter postmarked Janesville, announcing that he would soon be with them.

He served in the army until the close of the war, but never wrote home during the time he was absent, for what reason he does not state, and his wife not hearing anything of him believed him dead. With her four children she left home and started north, finally arriving at Ingalls, Michigan. When the war came to a close Barker went home only to find that his wife had left with the children and gone north but to what place he was unable to learn. Recently he obtained the address of a brother living at Janesville, whom he visited. Then he heard for the first time that his wife and children were alive and located at Ingalls. He at once started for Ingalls. Two of his sons were at the depot on his arrival, and although they were only six and eight years old when they last saw him, they recognized him as soon as he stepped from the car. The meeting of husband and wife, after a separation of thirty-four years, was very pathetic.

## BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN  
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.  
It will buy a building lot.  
It will buy a piano and the lessons necessary to play upon it.  
It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and are third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

## THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

—ONE VOTE FOR—

Of Janesville, Wis.

A Blessed Deliverance.  
This is effected when the hostile disturbance of the liver, known as biliousness, ceases through the benign operation of Hostetter's Stomach Bitters. Pain in the right side and under the right shoulder blade, yellowness of the skin and eyeballs, "fur" upon the tongue, morning nausea, vertigo, sour breath, irregularity of the bowels and sick headache, are among the distressing symptoms which take their departure when the great cathartic medicine is resorted to. Child's and mother's kidney and bladder trouble, rheumatism, dyspepsia and nervousness are also remedied by the Bitters, which is also a superb tonic and promoter of sleep and appetite. Use the Bitters persistently and not by fits and starts. Speedy good results will follow.

If the Baby is Cutting Teeth,  
See how and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents bottle.

MATT W. RANSOM.

New United States Minister to the Republic of Mexico.

To succeed the late Isaac Pusey Gray, who recently died in Mexico, the President has named, and the senate has confirmed, Senator Matt W. Ransom, of North Carolina, whose term in the senate expired March 3. Mr. Ransom has been a member of the senate since 1872, and during all these years he has been one of the most faithful attendants upon the sittings of the chamber. His absence will be noted in the senate, for he was a popular man with the members, and was among the best known of the senators to the frequenters of the galleries. He did not speak often, but when he did so was a conspicuous exponent of the old-fashioned style of oratory—picturesque in language, involved in rhetoric, but most suave and courteous in manner. Mr. Ransom, when the democrats gained ascendancy in the senate, was made chairman of the committee on commerce, and he also served on the committees on agriculture and forestry, on printing, on private land claims, on transportation routes, and on several others. During his long service he gave up his law practice almost entirely; and his friends in the senate, knowing that he had no fortune, but lived on his salary alone, were apprehensive that after that ceased the future was not bright. When Gov. Gray died,

MINISTER RANSOM.

the democratic members united in a petition to the President asking that the Mexican mission be given to the senior senator from North Carolina. This request was promptly granted, and the senate promptly confirmed the nomination.

Mr. Ransom was born in Warren county, North Carolina, in 1826, and was graduated from the University of North Carolina in 1847. He studied law, and in 1852 became attorney general of the state. He served in this office three years and resigned. He was a member of the North Carolina legislature in 1858, '59, and '60. He went as a delegate from his state to the peace congress which met in Montgomery, Ala., in 1861. When the civil war began he entered the Confederate army as a lieutenant-colonel. He served during the war, and surrendered at Appomattox. At that time, he had become through various promotions, a major-general. When the war was over he resumed the practice of the law, and was also a planter in Northampton county.

Victoria and Carlyle.

Thomas Carlyle, in a letter, tells how he met Queen Victoria at Dean Stanley's residence. "The Stanleys and we were all in a flow of talk, and some flunkies had done setting coffee-pots and tea-cups of sublime pattern, when her majesty, punctual to the minute, glided in, escorted by her dame-in-waiting (a duchess dowager of Athol) and by the Princess Louise, decidedly a pretty young lady, and clever, too, as I found out in talking to her afterwards. The queen came softly forward, a kindly smile on her face, gently shook hands with all the three women, gently acknowledged with a nod the silent bows of us male monsters, and directly in her presence every one was at ease again. She is a comely little lady, with a pair of clear, kind gray eyes; still looks almost young (in spite of one, broad wrinkle, which shows on each cheek occasionally); is still plump; has a fine, low voice—indeed, her whole manner is melodiously perfect. It is impossible to imagine a politer little woman; nothing the least imperious; all gentle, all sincere, looking unembarrassing—rather attractive even. Makes you feel, too, (if you have any sense in you) that she is queen."

Doctor H. R. Fish, of Gravois Mills, Mo., a practicing physician of many years' experience, writes: DeWitt's Witch Hazel Salve has no equal for indolent sores, scalds and burns. It stops pain instantly, heals a burn quickly and leaves no scar. C. D. Stevens.

Magistrate—Now, at the time you saw him was the prisoner drunk? Witness—Well, 'e may 'ave bin wot you'd call drunk, but he warn't wot I'd call drunk.

"Do you know that Mr. Addicks is fitted to be in the United States senate?" asked one statesman. "Well," replied the other thoughtfully, "it seems to take him a good while to do anything."

"Mrs. Winkles doesn't approve of the theater," said the observant woman. "What makes you think that?" "I was with her when she purchased her new hat. She bought a little bit of a thing."

"Is there any truth in the report that the Rev. Mr. Sibbles is to be dismissed for being too sensational?" "I guess there is. At least the congregation has good grounds. Do you know, for the last three months he hasn't preached on a single topic outside the Bible?"

La Grippe is here again with all of its old time vigor. One Minute Cough Cure is a reliable remedy. It cures, and cures quickly. C. D. Stevens.

The city of Paris has recently come into possession of a hoard of money amounting to more than 5,000,000 francs, bequeathed by an old lady, Mlle. Marie Tainis, who died as she had lived—alone and in seclusion.

When Frederick Douglass was living at Rochester and when his children were young they were not allowed to attend the public schools nor could white teachers be hired to teach them at home. Mr. Douglass was obliged to send to England to procure a governess for his children. That was Rochester then. On the day of Frederick Douglass' burial in Rochester he lay in state in the city hall, crowds of citizens came to look upon his face, and business in the city was suspended.

J. A. Richardson, of Jefferson City, Mo., Chief Enrolling force 38th general assembly of Missouri, writes: I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed, I obtained almost instant relief and a speedy cure by the use of One Minute Cough cure. C. D. Stevens.

Heard from J. Wilkes Booth.

Paducah, Ky., April 22.—Squire Dugger, a prominent merchant of Unionville, Ill., a few miles from Paducah, and master commissioner of Massac county, Ill., has imparted a startling bit of information. He says that last week he received a long letter from John Wilkes Booth, who is alive in South America, engaged in the mining business. He alleges that he and Booth were great friends, and that in the letter Booth expressed a desire to return to the United States, and also regret at the killing of the man supposed to have been Booth. The man killed, he says, was an accomplice, being the one that handed him the pistol with which he shot Lincoln.

Preacher Read Dime Novels.

Portland, Ore., April 22.—The report of the commission appointed to inquire into the mental condition of the Rev. J. C. Reed, the Baptist minister who was found not guilty of holding up an East Portland bank cashier, states that the reverend gentleman was addicted to the habit of reading dime novel literature, and further says: "He occupies the border line of mental soundness, and, conceding the commission of the robbery, the proper punishment or rather treatment, did the law permit it, would be a long term in the reform school."

BETTER THAN A GOLD MINE.

Last month I cleared, after paying all expenses, \$35.38; the month before \$186.55 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co. Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.
